INTRODUCTION

In today's digital age, studying at home has become a common trend, especially with the rapid growth of online learning platforms. Virtual Study Group (VSG) is an online group learning platform that addresses the lack of motivation and isolation in home learning by connecting learners, increasing interaction, and improving learning effectiveness.

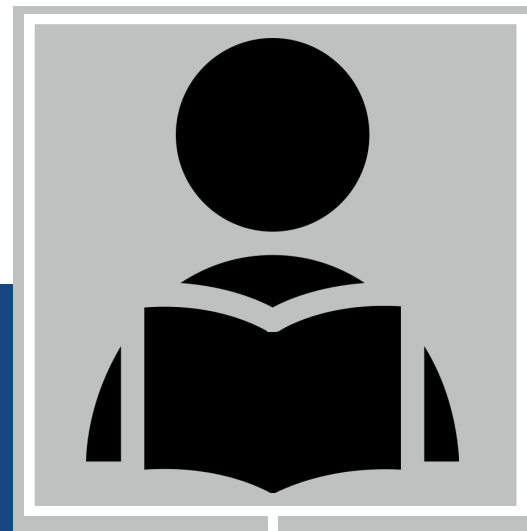

The Technology

THE TECHNOLOGIES OF PROJECT:

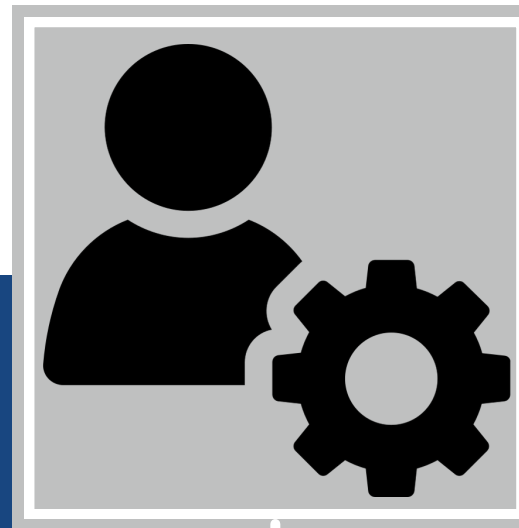

- BACKEND: JAVA SPRINGBOOT
- FRONTEND: REACT, TYPESCRIPT
- DATABASE: POSTGRESQL, MONGODB

USER AUTHORIZATION

K2L GROUPSTUDY

User Table

- Stores user information (name, email, password, status,...)

Group Member Table

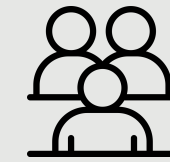

- A linking table between User & Role that defines which permissions each user has.
- Contain group which user joined

Super Admin Table

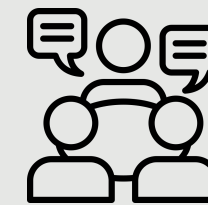

- This table contains information about the admin with the highest privileges.

Study Group Management

Group Table

Information about each group (group id, group name, group banner, etc.).

Meeting Table

Information about meeting(group id,user id,..)

Section Table

Manage the posts that users upload.

Review & Comment

Table Name	Key Responsibilities
Comment Table	User comment about the section (content, section id,...).

API

- User Management
 - Auth Management
 - Admin Management
 - Group Management
 - Section Management
- Meeting Management
 - Notification Management
 - Section Management
 - Chat Management

API

Auth Management			
1	Register	http://localhost:8081/api/auth/register	POST
2	Login	http://localhost:8081/api/auth/login	POST
3	logout	http://localhost:8081/api/auth/logout	POST
Admin Management			
1	Users	http://localhost:8081/api/admin/users	GET
2	Groups	http://localhost:8081/api/admin/groups	GET
3	Statitics	http://localhost:8081/api/admin/stats	GET
User Management			
1	Profile	http://localhost:8081/api/users/profile	GET
2	Change Password	http://localhost:8081/api/users/changePass	POST
3	Delete account	http://localhost:8081/api/users/deleteAccount	DELETE
Chat Management			
1	List Chat User	http://localhost:8081/api/chat/user/chats	GET
2	Privacy Message	http://localhost:8081/api/chat/user/new-direct-chat	POST
3	Send Message Group	http://localhost:8081/api/chat/{groupId}/message	POST
Comment Management			
1	Create Comment	http://localhost:8081/api/sections/{sectionId}/comments	POST
2	List Comments	http://localhost:8081/api/sections/{sectionId}/comments	GET

API

Group Management			
1	Create Group	http://localhost:8081/api/groups/create	POST
2	Get group By Id	http://localhost:8081/api/groups/{id}	GET
3	Join Group	http://localhost:8081/api/groups/{id}/join	POST
Meeting Management			
1	Create Meeting	http://localhost:8081/api/meetings/{groupId}/create-meeting	POST
2	Get Meetings By UserID	http://localhost:8081/api/meetings	GET
3	Get Meetings By GroupID	http://localhost:8081/api/meeting/{groupId}/meetings	GET
Notification Management			
1	Unread Notification	http://localhost:8081/api/notifications/unread	GET
2	Read Notification	http://localhost:8081/api/notifications/mark	POST
3	Read All Notification	http://localhost:8081/api/notification/mark-all	POST
Section Management			
1	Create Section	http://localhost:8081/api/sections/{groupId}/createSection	POST
2	List Section Of Group	http://localhost:8081/api/sections/{groupId}/listSection	GET
3	Edit Section	http://localhost:8081/api/sections/edit	PATCH
